Sussex Health Outcomes Research and Education in Cancer (SHORE-C), at Brighton and Sussex Medical School invite women who are **BRCA positive** and **have not been diagnosed with breast cancer** to take part in a focus group.

We will explore your views on a potential new treatment to reduce the risk of people developing breast and ovarian cancer in the future.

We offer a £25 voucher for participation. [You can read more about the focus groups here.](#)

For further information, please contact Professor Valerie Jenkins or Niomie Wogan on adminshore-c@sussex.ac.uk or call 01273 873 019.
